Specification and ordering

Base umbrella

21 inch (54 cm rib) three-fold, 8 fibreglass ribs, automatic open and close.
Frame black or Night Ink. Opens to about 96 cm. 28 cm closed. Target weight 350 g or less.

Canopy

190T polyester pongee, double layer. Outer layer printed Begonia Rose edge to edge, water-repellent finish. Inner layer printed Paper (or left unprinted white if the printer prefers). Nylon is out: it cannot be sublimation printed and costs 20 to 35% more (Zeelyne fabric guide).

Outside artwork

Gores 1 and 5: the four-colour canopy logo, 190 mm across, tilted 45 degrees with the tip to the upper left, on a white keyline so the red reads on Rose; centred 345 mm from the apex. Vector, rebuilt from the picture supplied 7 Oct.
Gores 3 and 7: RAIN / BORROW in Night Ink, 42 / 36 mm caps, baselines 300 / 445 mm, on a tall tapered white field.
Gores 2 and 6: STAY / COOL, / STAY / DRY. 32 / 40 / 48 / 56 mm caps; baselines 225 / 310 / 390 / 478 mm.
Gores 4 and 8: COVER / YOUR / JOURNEY. 32 / 46 / 38 mm caps; baselines 280 / 375 / 478 mm.
All Nunito ExtraBold.

Inside artwork

Gores 1 and 5: QR code 90 mm, Night Ink on a white tile, 10 mm quiet zone, caption under it, small wordmark.
Six other gores: one English line in Night Ink (20 mm caps), its Chinese line in Brick Rose under it.
Print the inner layer on the face that faces down, so the lines read when you look up.

Small parts

Handle: straight, plain matte Night Ink. Tip cap: Night Ink.
Strap: Rose with the white wordmark, snap stud. Optional hang tag with the QR.

Sponsor window (option)

Replaces the slogan on gore 2: a 120 x 120 mm loop panel takes a sublimated hook patch; a 5 inch patch costs US$2.71 at 1,000 or US$5.52 at 100 (Patches4Less price table).

The lines, gore by gore

1	QR code 90 mm. Nearest rack? Scan me.	最近的傘架？掃一掃。
2	Borrowed, not bought. Bring me back.	借來的，記得還。
3	Amber. Red. Black. I come in Rose.	黃雨紅雨黑雨，我只有海棠紅。
4	Return me anywhere. I'm not picky.	任何站點都能還，我不挑。
5	QR code 90 mm. Nearest rack? Scan me.	最近的傘架？掃一掃。
6	Leave me at a rack, not on the MTR.	請放回傘架，別留在港鐵。
7	T8 hoisted? I'm staying in too.	八號風球？我也不出門。
8	You looked up. Hi.	你抬頭了。你好。

QR code

Encodes: https://rainborrow.hk/go
A short link the team controls, so the destination changes without a reprint (dynamic QR plans run US$5 to 25 a month, QRLynx comparison). Rebuild with --qr-url before print. Scan the proof at 50 cm.

Order routes

A. One-off sublimated 3-fold, Ginifab: US$16.50 for 1 piece, no minimum, 190T pongee, 3 to 7 business days plus shipping. Ask for a double-layer canopy with a different inside print; send both sheets.
B. Hong Kong printer, e-print UM-607: minimum order 100, quote needed. For the fleet, not the showcase.
C. Fallback that makes 13 Oct: a plain rose three-fold from a shop, printed polyester transfers for the logo, name badge and slogans outside, printed polyester patches inside (Paper field, Ink lines, the QR). HK shops quote one piece by WhatsApp, no plate. Nylon scorches above about 140 C: ask for a polyester blank.
D. Taobao or 1688 one-piece custom (search 雙層 內外雙面印 三折傘 定製): unverified, usually 7 to 10 days.

Timing

Final presentation Tue 13 Oct. Route A ordered 7 Oct lands around 14 to 20 Oct: order it anyway for the real sample, and make route C this week for the stage. Both use the same artwork files.

Proof checklist

Rose matches #DB5A6B on a proof (CMYK values are uncalibrated). Badge and slogan white is pure white, not Paper. The outside company name is Night Ink on a tapered white field; slogans are bold white capitals. Inside text reads with the hem at the bottom. QR scans from a phone at 50 cm in the open umbrella. Seams fall on the gore edges, not through the artwork. Strap wordmark is centred when the strap is closed.
